

# CLEAN TECH REVOLUTION

## WHAT HAPPENS HERE CAN CHARGE THE WORLD

Discover a region that's charging towards a sustainable and prosperous future. Nevada is a national leader in clean energy, ranking in the top ten nationally for both clean energy job creation and investment by Climate Power. With Las Vegas' vibrant economy, world-class infrastructure, and commitment to innovation, our region is the perfect destination for clean energy companies seeking to make their mark in the green energy revolution.

### LEADER IN CLEAN ENERGY TECHNOLOGY

In 2022, Nevada created 11,500 clean energy jobs, invested \$9B in clean energy projects, and was ranked as the state with the biggest solar economy.

### GROWING CLEAN TECHNOLOGY ECOSYSTEM

More than two dozen clean energy companies already call Las Vegas home, with additional institutes providing R&D, resources, and support.

### COMMITMENT TO SUSTAINABILITY

The state, county, cities, and Las Vegas' resorts have all committed to clean energy transitions, leading to ample partnership opportunities.

## ASSETS IN THE REGION

### UNLV CENTER FOR ENERGY RESEARCH (CER)

The CER focuses on research, information exchange, and education in energy topics, including solar energy, green buildings, solar hydrogen, nuclear energy, wind energy, and thermoelectrics.

### ACCELERATE ELECTRIC NEVADA RENEWABLE ENERGY CLUSTER DEVELOPMENT PROJECT

In November 2023, UNLV received a \$1.15 million EDA grant to support innovative clean energy and technology startups in Southern Nevada.

### DESERT RESEARCH INSTITUTE (DRI)

As the research arm of the Nevada System of Higher Education, DRI conducts research into new economically and environmentally friendly energy production methods and real-world applications.

### NEVADA CLEAN ENERGY FUND

A nonprofit organization created in 2017 by state legislation that supports a thriving, affordable, and accessible clean energy economy by providing financial and technical resources to Nevadans.

### NV ENERGY GREENLINK NEVADA

A renewable energy and electrical infrastructure initiative that would create a renewable energy highway from northern to southern Nevada. The new transmission lines would open access to Nevada's resource-rich renewable energy zones.
